Notes to consolidated financial statements (unaudited)

Note 1. Basis of financial statement preparation

These unaudited consolidated financial statements have been prepared in accordance with United States Generally Accepted Accounting Principles (GAAP) and follow the same accounting policies and methods of computation as, and should be read in conjunction with, the most recent annual consolidated financial statements filed with the U.S. Securities and Exchange Commission (SEC) in the company's 2025 annual report on Form 10-K. In the opinion of the company, the information furnished herein reflects all known accruals and adjustments necessary for a fair statement of the results for the periods reported herein. All such adjustments are of a normal recurring nature.

The company's exploration and production activities are accounted for under the "successful efforts" method.

Amounts for related party revenues and purchases for the three months ended March 31, 2025 have been revised from \$2,874 million to \$3,653 million and from \$427 million to \$1,206 million, respectively. Impacts of the revision offset to zero.

The results for the three months ended March 31, 2026, are not necessarily indicative of the operations to be expected for the full year.

All amounts are in Canadian dollars unless otherwise indicated.

IMPERIAL OIL LIMITED

- (a) Includes export sales to the United States of \$2,201 million (2025 - \$2,791 million).
- (b) Revenues include both revenue within the scope of ASC 606 and outside the scope of ASC 606. Trade receivables in "Accounts receivable - net" reported on the Consolidated balance sheet include both receivables within the scope of ASC 606 and outside the scope of ASC 606. Revenue and receivables outside the scope of ASC 606 primarily relate to physically settled commodity contracts accounted for as derivatives. Contractual terms, credit quality and type of customer are generally similar between contracts within the scope of ASC 606 and those outside it.

Revenues millions of Canadian dollars	Three Months to March 31

Note 8. Financial and derivative instruments

Financial instruments

The fair value of the company's financial instruments is determined by reference to various market data and other appropriate valuation techniques. There are no material differences between the fair value of the company's financial instruments and the recorded carrying value. At March 31, 2026 and December 31, 2025, the fair value of long-term debt (\$3,447 million, excluding finance lease obligations) was primarily a level 2 measurement.

Derivative instruments

The company's size, strong capital structure and the complementary nature of its business segments reduce the company's enterprise-wide risk from changes in commodity prices, currency rates and interest rates. In addition, the company uses commodity-based contracts, including derivatives, to manage commodity price risk and to generate returns from trading. Commodity contracts held for trading purposes are presented in the Consolidated statement of income on a net basis in the line "Revenues" and in the Consolidated statement of cash flows in "Cash flows from (used in) operating activities". The company's commodity derivatives are not accounted for under hedge accounting.

Credit risk associated with the company's derivative position is mitigated by several factors, including the use of derivative clearing exchanges and the quality of and financial limits placed on derivative counterparties. The company maintains a system of controls that includes the authorization, reporting and monitoring of derivative activity.

The net notional long/(short) position of derivative instruments was:

	As at Mar 31	As at Dec 31
thousands of barrels	2026	2025
Crude	1,776	954
Products	946	(702)

Realized and unrealized gain/(loss) on derivative instruments recognized in the Consolidated statement of income is included in the following line on a before-tax basis:

	Three Months to March 31	
millions of Canadian dollars	2026	2025
Revenues	65	15

IMPERIAL OIL LIMITED

The estimated fair value of derivative instruments, and the related hierarchy level for the fair value measurement, were as follows:

At March 31, 2026

millions of Canadian dollars

	Fair value				Effect of counterparty netting	Effect of collateral netting	Net carrying value
	Level 1	Level 2	Level 3	Total

Note 11. Miscellaneous financial information

Restructuring charges

On September 29, 2025, the company announced restructuring plans to improve its performance by centralizing additional corporate and technical activities in global business and technology centres. The restructuring plans include a program of targeted workforce reductions. The program, which is expected to be substantially completed by the end of 2027, involves involuntary employee separations. In the third quarter of 2025, the company recorded charges of \$330 million, before-tax, consisting primarily of restructuring costs associated with announced workforce reduction programs. These costs were captured in "Selling and general" on the Consolidated statement of income and reported in the Corporate and other segment.

The following table summarizes the reserves and charges related to the workforce reduction program, which are recorded in "Accounts payable and accrued liabilities" and "Other long-term obligations" on the Consolidated balance sheet.

Item 2. Management’s discussion and analysis of financial condition and results of operations

Recent business environment

During the first quarter of 2026, the price of crude oil increased relative to the fourth quarter of 2025, while the Canadian WTI/WCS spread widened. Geopolitical events in the Middle East and increasing supply uncertainty continued to drive volatility in crude oil prices and heavy crude differentials. Industry refining margins improved in the first quarter of 2026, impacted by industry supply outages.

During 2025, the United States implemented and adjusted a variety of trade-related measures, including tariffs on certain imports from Canada and several other countries. In response, Canada announced its own retaliatory tariffs. Based on Imperial's assessment of these actions and their effects to date, the company does not expect them to have a material impact on its consolidated financial position, results of operations, or cash flows.

Operating results

First quarter 2026 vs. first quarter 2025

millions of Canadian dollars, unless noted	First Quarter	
	2026	2025
Net income (loss) (U.S. GAAP)	940	1,288
Net income (loss) per common share, assuming dilution (dollars)	1.94	2.52

Upstream

Net income (loss) factor analysis

millions of Canadian dollars

Price – Average bitumen realizations decreased by \$7.10 per barrel, primarily driven by a weaker WTI/WCS spread. Synthetic crude oil realizations decreased by \$2.66 per barrel, primarily driven by a weaker Synthetic/WTI spread.

Volume – Inventory impacts partially offset by higher production.

Other – Primarily due to unfavourable foreign exchange impacts of about \$100 million.

Marker prices and average realizations

Canadian dollars, unless noted	First Quarter	
	2026	2025
West Texas Intermediate (US\$ per barrel)	72.67	71.42
Western Canada Select (US\$ per barrel)	58.33	58.83
WTI/WCS Spread (US\$ per barrel)	14.34	12.59
Bitumen (per barrel)	68.21	75.31
Synthetic crude oil (per barrel)	96.13	98.79
Average foreign exchange rate (US\$)	0.73	0.70

IMPERIAL OIL LIMITED

Production

thousands of barrels per day	First Quarter	
	2026	2025
Kearl (Imperial's share)	183	181
Cold Lake	155	154
Syncrude (a)	72	73
Kearl total gross production (thousands of barrels per day)	259	256

(a) In the first quarter of 2026, Syncrude gross production included about 8 thousand barrels per day of bitumen and other products (2025 - 2 thousand barrels per day) that were exported to the operator's facilities using an existing interconnect pipeline.

Lower production at Syncrude driven by unplanned coker downtime, partially offset by improved mine reliability.

Downstream

Net income (loss) factor analysis

millions of Canadian dollars

Other – Primarily due to product mix effects.

Refinery utilization and petroleum product sales

thousands of barrels per day, unless noted	First Quarter	
	2026	2025
Refinery throughput	384	397
Refinery capacity utilization (percent)	88	91
Petroleum product sales	441	455

Lower refinery throughput and capacity utilization were primarily due to unplanned downtime and a disruption of synthetic crude feedstock caused by Syncrude's coker outage.

Lower petroleum product sales were primarily due to lower volumes in the supply channel.

Forward-looking statements

Statements of future events or conditions in this report, including projections, targets, expectations, estimates, and business plans are forward-looking statements. Forward-looking statements can be identified by words such as believe, anticipate, intend, propose, plan, goal, seek, project, predict, target, estimate, expect, strategy, outlook, schedule, future, continue, likely, may, should, will and similar references to future periods. Forward-looking statements in this release include, but are not limited to, references to the renewal of the company's normal course issuer bid; the use of derivative instruments and effectiveness of risk mitigation; the company's workforce transformation and restructuring plans to centralize activities in global business and technology centres, including timing and impacts; and the impact on the company of trade-related actions.

Forward-looking statements are based on the company's current expectations, estimates, projections and assumptions at the time the statements are made. Actual future financial and operating results, including expectations and assumptions concerning for the renewal of the company's normal course issuer bid, approval of the Toronto Stock Exchange and participation of the company's majority shareholder; future energy demand, supply and mix; production rates, growth and mix across various assets; for shareholder returns, assumptions such as cash flow forecasts, financing sources and capital structure, participation of the company's majority shareholder in the normal course issuer bid, and the results of periodic and ongoing evaluation of alternate uses of capital; project plans, timing, costs, technical evaluations and capacities and the company's ability to effectively execute on these plans and operate its assets; availability and performance of third-party service providers, including ExxonMobil global capability centres and other service providers located outside of Canada; capital and environmental expenditures; the ability to offset any ongoing or renewed inflationary pressures; applicable laws and government policies, including with respect to climate change, greenhouse gas emissions reductions and low carbon fuels; cash generation, financing sources and capital structure, such as dividends and shareholder returns, including the timing and amounts of share repurchases; and commodity prices, foreign exchange rates and general market conditions, could differ materially depending on a number of factors.

These factors include global, regional or local changes in supply and demand for oil, natural gas, petroleum and petrochemical products, feedstocks and other market factors, economic conditions and seasonal fluctuations and resulting demand, price, differential and margin impacts, including Canadian and foreign government action with respect to supply levels, prices, trade tariffs, trade sanctions or trade controls, disruptions, realignment or breaking of trade alliances or agreements or a broader breakdown in global trade, and disruptions in military alliances or wars; political or regulatory events, including changes in law or government policy, applicable royalty rates, and tax laws; third-party opposition to company and service provider operations, projects and infrastructure; failure, delay, reduction, revocation or uncertainty regarding supportive policy and market development for the adoption of emerging lower emission energy technologies and other technologies that support emissions reductions; the receipt, in a timely manner, of regulatory and third-party approvals, including for new technologies relating to the company's lower emissions business activities; competition from alternative energy sources, other emission reduction technologies, and established competitors in such markets; availability and allocation of capital; project management and schedules and timely completion of projects; unanticipated technical or operational difficulties; availability and performance of third-party service providers, including ExxonMobil global capability centres and other services providers located outside of Canada; environmental risks inherent in oil and gas exploration and production activities; environmental regulation, including climate change and greenhouse gas regulation and changes to such regulation; effectiveness of company risk management programs and emergency response preparedness; operational hazards and risks; cybersecurity incidents including incidents caused by actors employing emerging technologies such as artificial intelligence; currency exchange rates; general economic conditions, including continued or renewed inflation and the occurrence and duration of economic recessions or downturns; and other factors discussed in "Item 1A risk factors" and "Item 7 management's discussion and analysis of financial condition and results of operations" of Imperial's most recent annual report on Form 10-K.

Forward-looking statements are not guarantees of future performance and involve a number of risks and uncertainties, some that are similar to other oil and gas companies and some that are unique to Imperial. Imperial's actual results may differ materially from those expressed or implied by its forward-looking statements and readers are cautioned not to place undue reliance on them. Imperial undertakes no obligation to update any forward-looking statements contained herein, except as required by applicable law.

Item 3. Quantitative and qualitative disclosures about market risk

Information about market risks for the three months ended March 31, 2026, does not differ materially from that discussed on page 35 of the company's annual report on Form 10-K for the year ended December 31, 2025.

Item 4. Controls and procedures

As indicated in the certifications in Exhibit 31 of this report, the company's principal executive officer and principal financial officer have evaluated the company's disclosure controls and procedures as of March 31, 2026. Based on that evaluation, these officers have concluded that the company's disclosure controls and procedures are effective in ensuring that information required to be disclosed by the company in the reports that it files or submits under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to them in a manner that allows for timely decisions regarding required disclosures and are effective in ensuring that such information is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. There has not been any change in the company's internal control over financial reporting during the last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal proceedings

Imperial has elected to use a \$1 million (U.S. dollars) threshold for disclosing environmental proceedings.

Item 2. Unregistered sales of equity securities and use of proceeds

Issuer purchases of equity securities

	Total number of shares purchased	Average price paid per share (Canadian dollars) (a)	Total number of shares purchased as part of publicly announced plans or programs	Maximum number of shares that may yet be purchased under the plans or programs (b)

March 2026				
(March 1 - March 31)	—	—	—	—

(a) Excludes 2 percent tax on repurchases of equity.

(b) On June 23, 2025, the company announced by news release that it had received final approval from the Toronto Stock Exchange for a new normal course issuer bid to continue its then-existing share purchase program. The program enabled the company to purchase up to a maximum of 25,452,248 common shares during the period June 29, 2025 to June 28, 2026. This maximum included shares purchased under the normal course issuer bid from Exxon Mobil Corporation. As in the past, Exxon Mobil Corporation advised the company that it intended to participate to maintain its ownership percentage at approximately 69.6 percent. Imperial accelerated share purchases under the normal course issuer bid program, and the program completed on December 17, 2025 as a result of the company purchasing the maximum allowable number of shares under the program.

The company intends to renew the normal course issuer bid in June 2026.

Item 5. Other information

During the three months ended March 31, 2026, none of the company's directors or officers adopted or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as each term is defined in Item 408(a) of Regulation S-K.
