

CER Operations Authorization and SLWB Type A Water Licence

Selected current and
planned management plans

This table shows a list of management plans that Imperial intends to update in 2026. The table shows the date of issue for the version currently in use and when Imperial expects to have a draft available for community review and comment for the next updated versions.

The table does not include all management plans and reflects plans for updates based on topic areas communities have expressed interest in during past engagement and regulatory activities.

Primary purpose	Title	Recent revision	Last issued	Expected draft for community review	Applicable regulator
Engagement	Community Engagement Plan	4	2024	July 2026	CER, SLWB
Environment	Aquatic Effects Monitoring Plan (AEMP)	4	2022	July 2026	SLWB
Environment	Groundwater Management Plan (GMP)	9	2024	July 2026	SLWB
Environment	Wildlife Management Plan	2	2005	July 2026	CER, SLWB
Environment	Waste Management Plan (WMP)	6	2021	July 2026	SLWB
Field Execution	Fuel Management Plan (formerly part of SCARP)	1		October 30, 2026	SLWB
Environment	(Surface Water) Quality Assurance & Quality Control Manual	5	2021	October 30, 2026	CER, SLWB
Emergency Response	Emergency Response Plan (ERP) - Norman Wells Operations	18	2024	October 30, 2026	CER, SLWB
Spill Response	Spill Contingency and Response Plan (SCARP)	3	2024	October 30, 2026	CER, SLWB
Spill Response	Mackenzie River Tactical Response Plan (MRTRP)	1	2024	October 30, 2026	CER, SLWB
Environment	Environmental Protection Plan (EPP)	5	2024	October 30, 2026	CER, SLWB
Health and Safety	Safety Plan	9	2024	October 30, 2026	CER

As the IC&M application engagement process progresses, Imperial will provide updates on any additional plans or reports requiring engagement.
