

# Interested in working with Strathcona refinery?

At Imperial Strathcona refinery we select quality suppliers and contractors through a comprehensive review process. Consideration includes a variety of factors including safety performance, environmental performance, service, price, technology, reliability, specifications and delivery.

Strathcona refinery works directly with contractors who provide a variety of services including: mechanical, scaffolding, civil, electrical, instrumentation, inspection, insulation, tank, industrial cleaning, catalyst handling, offsite fabrication, refractory, machinist, equipment mechanics, cranes, and equipment rental services.

Strathcona refinery direct purchases materials from both local and global suppliers. Purchases include: gaskets, bolts, electrical, tools, pipe, valves, fittings, flanges, catalysts, chemicals, motors, compressors, pumps, exchangers, furnace, boiler, tanks, towers, drums, and reactors.

Strathcona refinery has a preference for long term (typically 5 year) agreements with our suppliers and contractors. Preference is given to companies with proven industrial capabilities specifically in refining.

Strathcona refinery bundles and unbundles materials and services to meet our strategic needs. For example scaffold and insulation services may be bundled or unbundled in an agreement.

Strathcona refinery is open to labour from a variety of work force sources including union and non-union.

If this sounds like your company, please complete and submit the following .pdf form by email at [StrathconaSupplierRelations@esso.ca](mailto:StrathconaSupplierRelations@esso.ca).

The commercial team at Strathcona refinery will review information provided and you will only be contacted should a business need arise.

No compensation will be provided for completing the following information. Completion of the information does not imply an intention to acquire materials or services.
